POINT
01

Top-quality medical facilities and services

Daegu is home to not only 3,600 hospitals and clinics, including five university hospitals and 12 general hospitals, but also traditional Korean medicine clinics and cutting-edge medical technologies (e.g. cosmetic surgery, cosmetology, hair transplantation, tooth whitening, health checkup and administrative systems) that allow you to receive safe and accurate treatment.

POINT
02

Extensive traditional Korean medicine infrastructure

Daegu, which has long served as a center for the shipping and international trade of medicinal herbs, is home to Yangnyeongji, a medicinal herb wholesale market that is 300 years old. There are approximately 800 hospitals and clinics in Daegu specializing in traditional Korean medicine, including Daegu Haany University Korean Medicine Hospital, that offer a wide range of treatments (e.g. acupuncture, moxibustion, chuna manual therapy) and traditional Korean medicine-themed interactive facilities, such as the famous Yangnyeongji Oriental Medicine Museum.

POINT
03

Concierge (One-Stop Service)

Diverse services are provided for foreign medical tourists, including transportation to and from hospitals for the duration of their stay and an interpreter. For those receiving a full checkup, a translation of the checkup results is provided.

POINT
04

Daegu Medical Tourism Information Center

The Daegu Medical Tourism Information Center offers all services related to medical tourism that foreigners need, including information on hospitals and partner organizations and a concierge.
