

PLANETT

Korea & Worldwide Data Roaming Services

Official distributor for South Korea's leading telecommunication companies LG U+

Planet T Inc.

Planet T Inc. is a specialized telecommunications value-added service company that first introduced portal roaming services in South Korea. We offer a variety of customized roaming services tailored to the needs and preferences of our customers. As the official distributor for South Korea's leading telecommunications company, LG U+, our headquarters is located in Seoul, South Korea, with branches in the USA and in Hong Kong.

We are the leading brand in South Korea's international SIM Card market with usimstore, and operate the 3rd generation roaming service eSIM's B2C brand esimplay, B2B brand esimstation and the Wi-Fi egg brand, establishing ourselves as South Korea's NO.1 company in the roaming service sector.

We pledge to continue serving as the global leader in the telecommunication service industry, dedicated to providing freedom of connection for travelers worldwide.

Global Data Connection Solutions for Partner Companies

Our products offer the optimal solution for customers worldwide who wish to freely use the internet anywhere. By selling our products, you can receive a superior commission rate compared to other products, along with additional discounts for bulk orders. We also provide exclusive platform accounts for our partner companies.

We are the official sales channel for the excellent local products of South Korea's leading telecommunication companies and have received positive evaluations for our high-quality products and customer support.

If you would like to learn more about our products and revenue generation strategies, please contact us at the email address below.
