

Cambodia's First Ever EduCamp

Invest in Your Child FUTURE &
Ignite Passion Technology at
Kirirom National Park

Is Your Child Ready for Industry Revolution 4.0?

- Cambodia future is now.
- Digital skills are needed to drive Cambodia's new and Innovation Focused Economy.
- Driving digital transformation for Cambodia and Your Child Future

What is Educational Camp?

MAKE IDEAS

1 week camp program where students can learn technology, nature topics, and teamwork skills in National Park in fun and relaxed environment to create forever memories together with new friends. Focus on igniting passion for technology and appreciate nature

vKirirom can be FIRST company in Cambodia to offer one week “summer camp” type programs where students can learn and play without parents during school breaks and summer vacation. Place to study hard and play hard that must be FUN.

Target Students: Grades 5-8 and Grades 10-11

(Grades 9 and 12 are test years and everyone study during long vacation)

MAKE IDEAS

Expectation Benefit of the Camp

1. Ignite passion in technology for your child at early age and help their future.
2. Give your child memories of a lifetime all while making new friends and having time of their lives in beautiful nature.
3. Give opportunity for your child to become more independent and grow.

Unleash your child's creativity by opening up world of digital art-making by exposing your artist to the tools, software, and inspiration to make art on virtual canvas. In the world of automation, creativity is one area that cannot be replaced by robots.

Technology Program

WEBSITE CREATION

In this digitalized world, website is an essential part of everyday life. There is a website for all most everything, from personal blog to product retailers. Website creation has now become a necessary skill to be part of digital world.

DIGITAL ART

Express oneself through video is becoming increasingly important in our social media world. Learning how make simple movie that teach storytelling, collaboration role & responsibility, as well as simple video editing techniques will make your child stand out in our globally connected world.

One with Nature Program

Kids today look too much time at screen instead of being active outdoor. Research show that connect with nature is critical for children's social, physiological, emotional, academic, and physical health. Our nature program activities include such as trekking, caring farm animal, growing vegetable, and riding horse to get deep appreciation for nature.

Team Work for Life

21st Century Skills are focused on teamwork as communication and collaboration are increasingly important skills for today's workforce. Our team build program focuses on teaching and reinforcing communication, collaboration, cooperation, and critical thinking skills through sets of team activities they must complete together while having fun.

Fun Filled Night

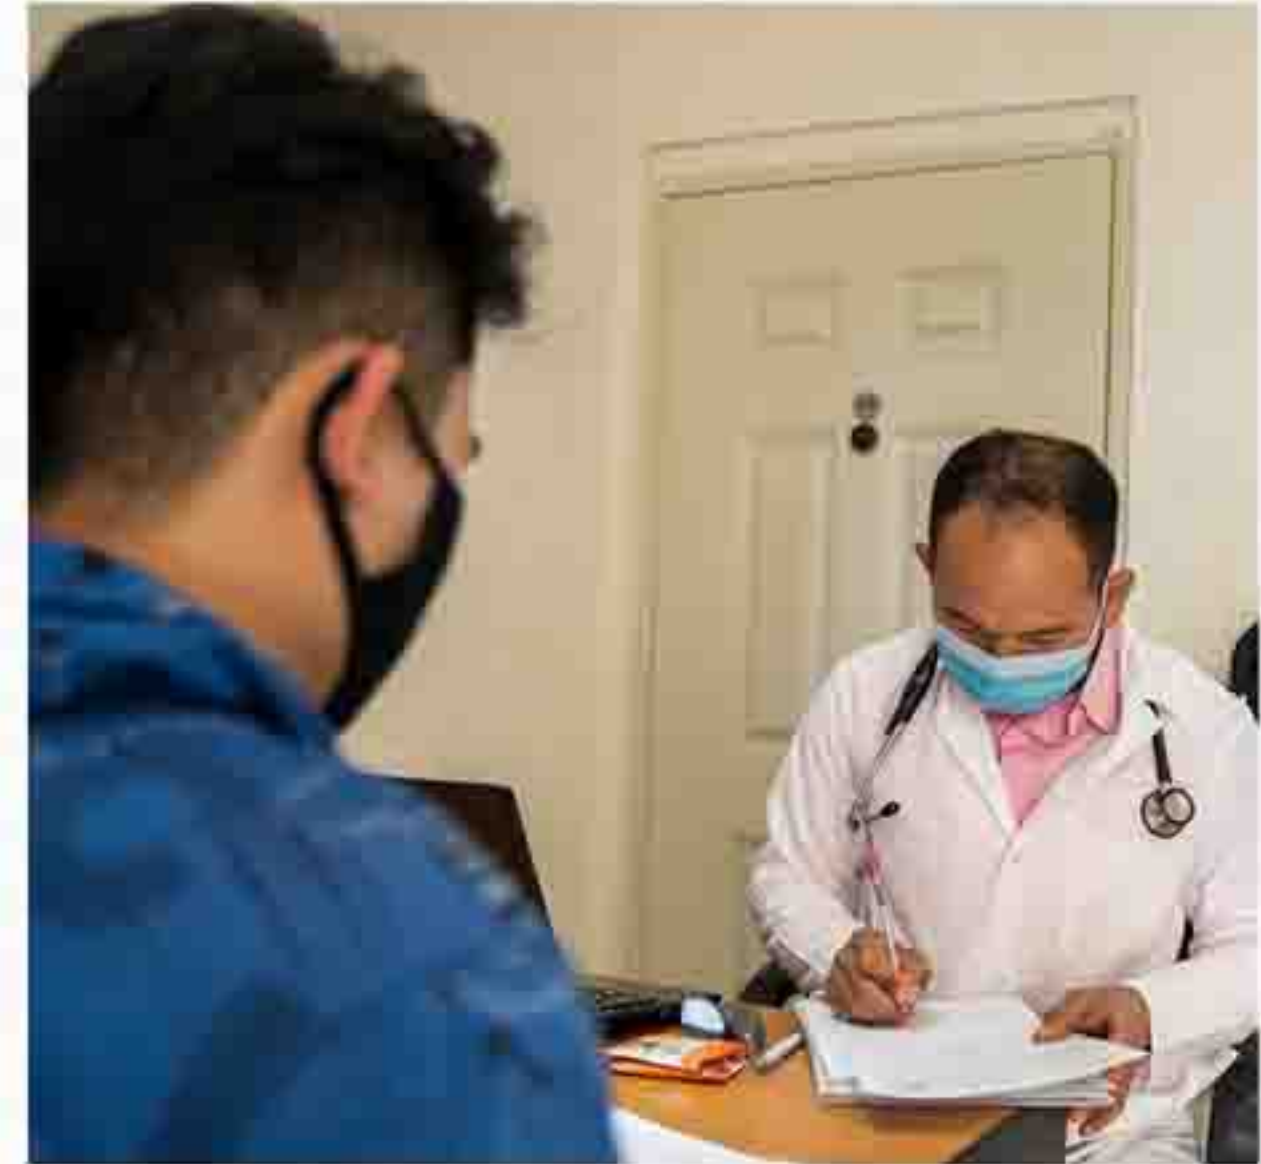

Our night program is all about fun focused on developing children's social skill by speaking and performing in front of other in a safe and supportive environment under stunning stars, big bonfire, and warmth from new friends. Activities include star gazing, Dancing and singing around bonfire, performing short skit on outdoor stage and outdoor BBQ.

Safety and Security

Safety and well being of your child is most important and top priority for us. Our vKirirom and its community over 300 KTI students and staff along resort customers and staff are well protected by out security guards and on-site nurse a long proven track record safety.
