

Platform Introduction

Macao's first full-domain tourism B2B resource integration platform, covering "supply chain + technology + services"

Tourcon B2B Platform is an industry-focused platform for the global travel sector, providing one-stop resource integration, smart product configuration, and efficient business matching services. It is dedicated to promoting in-depth exchanges and cooperation between Macao-Hengqin + Greater Bay Area, mainland China, and international markets.

The Tourcon B2B Platform integrates information on hotels, tickets, transportation, events, exhibitions, performances, and other grand affairs, as well as commercial procurement services.

By integrating tourism resources, it better connects domestic and international B2B markets, driving the digital development of Macao+Hengqin's tourism and adjacent industries.
