

Krakow – a city that enchants far beyond the first visit.

Krakow, the former capital of Poland, was the seat of kings and the site of royal coronations. It played a key role in Polish history for centuries. Unlike many European cities, Krakow escaped major wartime destruction, so visitors today can walk among genuine medieval and Renaissance buildings, not modern reconstructions.

From the Main Market Square and Wawel Hill to Kazimierz and Podgórze, each area has its own stories and secrets. But Krakow is also full of cozy cafés, green parks, art, music, and events all year round.

It's a city that offers something special not only to first-time visitors but also to those who return to explore it again and again.
