

Hire a chauffeur in as little as 1 minute, 24/7.

"Luxury Chauffeur Service Across Japan."

LIMO JAPAN is Japan's first Chauffeur Service reservation system. You do not need to contact us by email or phone for a quote or to inquire about available car models. Instead, you can check the availability of vehicles online at the time of reservation, and easily add various optional services. Whether you are being picked up from the airport or a port, or traveling on your own, you can relax in a luxury car that you would not normally experience in your day-to-day life. Our sophisticated and experienced staff will provide you with the most comfortable transport throughout Japan.

Reservations

Reservations are always easy

You can make a reservation in as little as one minute.
After you fill out the reservation form, reservations are automatically confirmed once credit card payment is completed. This reservation system makes it easy to arrange a Chauffeur Service anytime and anywhere.

Reservations List

Manage reservations on your account page

A reservation management system is available to manage multiple reservation all one place without the need for a contract fee or initial system installation costs. The reservation management screen uses an intuitive and user-friendly calendar-style management system, making it easy for anyone to use.
Note: The reservation management system is available only for corporate customers.

Optional Service

A wide range of optional services

including EVs and
support for foreign languages

English-speaking drivers to ensure your peace of mind — even on your first visit to Japan. We also offer environmentally friendly EVs and other optional services to meet your needs.
