

TIME TO VISITS TO OUR MAJOR EVENTS!

FREERIDE WORLD TOUR QUALIFIER

Freeriding — or skiing and snowboarding in off-piste, ungroomed terrain without a set course, often including deep powder and steep runs — has gained traction in the past few years. To jumpstart its growth, the Freeride World Tour has been bringing world-class freeriding sports events to slopes around the world. Journey with Freeride World Tour Qualifier events started in February 2022. After successfully hosting FWTQ events for two years in a row, the Svaneti mountains expect to become the host of a major FWT event during the winter season of 2023–24.
