

Specialty Experiences

For the curious. The quiet. The deeply personal.

Some journeys don't fit into neat categories. They start with a calling—a fascination, a mood, a whisper. Our Specialty experiences are designed for travelers seeking something more specific, more intimate, more them.

Whether you're chasing rare birds through forest canopies, soaking in healing retreats, or capturing Bhutan's golden light through a lens, these are slow journeys filled with quiet wonder and intention.

Photography Tours

Light, color, and untold stories.

Bhutan is a visual feast: vibrant festivals, golden hour over dzongs, yak herders framed by snowy peaks. Our photography tours pair you with local guides who know when and where the magic happens.

Whether you're a seasoned photographer or an inspired amateur, we help you capture more than just images—we help you capture spirit.
