Lobby in the ship

Footbath to enjoy while
gazing at the sea

Light meal menu available at the onboard store

A Scenic Ferry Journey Across the Seto Inland Sea for Kansai-In Itineraries

Jumbo Ferry operates a regular ferry service connecting **Kobe** Sannomiya Ferry Terminal with **Shodoshima** Sakate Port and **Takamatsu** Higashi Port. The Kobe terminal is easily accessible from Osaka, Kobe and Kyoto, making it a convenient route for travelers arriving via Kansai International Airport.

By using Jumbo Ferry, travelers can move from Kansai to Shodoshima, Takamatsu and the wider Shikoku area while enjoying the beautiful scenery of the Seto Inland Sea. Compared with long coach journeys, the ferry offers a refreshing change of pace, allowing passengers to walk around the vessel, relax in comfortable onboard spaces, and enjoy the sea breeze during the journey.

Our newest vessel, Aoi, launched in 2022, was designed under the concept of a “terrace resort on the Seto Inland Sea.” With open terraces, relaxing sea views, comfortable seating and premium seat options, the ferry journey itself can become a memorable part of the trip.

Jumbo Ferry is suitable for Kansai-in itineraries, coach tours, small groups and FIT travelers looking for an easy and enjoyable route to Shodoshima, Takamatsu and Shikoku.

If you are considering Jumbo Ferry as a transportation option from Kansai to Shodoshima, Takamatsu or the wider Shikoku area, please contact us using the details above. For timetables, fares, seat types and further information, please scan the QR code below.
